Cub Scout Connections:

Finding Common Themes in the New Cub Scout Adventure Program

Purpose

Change isn't easy. Since the 1930s, the Cub Scout Program has undergone several transformations to ensure that the program remains relevant to today's boys. The New Cub Scout Adventure Program realigns the program to the mission and vision of the Boys Scouts of America while maintaining a fun, exciting family- and faith-oriented outdoor program to instill leadership and core values in our boys.

The new Adventures integrate rank advancement and electives with portions of the current Academics & Sports Program and with entirely new programming. Unlike current offerings, the new Adventures are entirely rank-specific; veteran leaders may be concerned about how to continue pack-level and multi-age programming that allows boys of all ages to interact and learn together.

The purpose of this guide is to show the connections and common themes among Adventures across ranks to encourage the continuation of pack-level and multi-age programming as well as assist in the planning of events such as camping/outdoor programs and belt loop events.

Please be aware that this is not an official BSA publication. The categories of adventures are not ones developed by the BSA. Some adventures appear in more than one category.

The BSA has organized the new program around 5 principles. In this guide, each Adventure has been associated with at least one organizing principle according to the definitions below. (These associations are also not "official," so feel free to disagree!)

EXAMPLES

Here are two examples of how this guide might be used.

1) Let's say that you are planning a belt loop event and would like to have a station for art.

The following adventures have common art themes:
